## ISOCELL® X-wall

The ultimate solution for modern natural ventilation! Simply the **BRIGHTEST**, the most **INSULATING** and the most **STRUCTURAL** system that you can find!

## **ISOCELL® X-WALL**

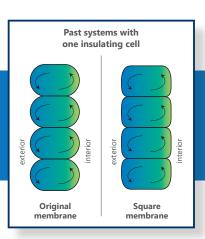

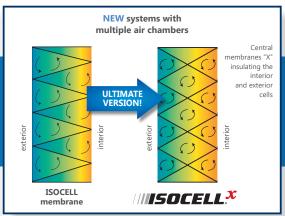

United by Dairy

## ISOCELL® X-wall

DO AWAY WITH THE ICE AND THE COLD WITH THE **UNIQUE TECHNOLOGY** OF ISOCELL® X-WALL

Nearly 3X the insulating power of ANY other system on the market today!

These diagrams illustrate the heat zone

## THE ISOCELL® X-WALL MEMBRANE OFFERS:

The "X" structure of membrane inserted inside two films by the **ISOCELL® X-wall** technology offers the possibility to manufacture this unique ventilation wall while having multiple insulating cells.

This insulated barrier of the multi-wall ISOCELL® X-wall minimizes the heat transference of the colder external air and the warmer interior air cells.

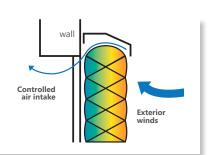

By eliminating the heat transfer, the Multi-Wall ISOCELL® X-wall is the most insulating and efficient system on the market!

- 3X more insulation R4.4 (U1.3)
- · Elimination of ice formation
- Excellent luminosity
- · Improved lowering of the membrane due to the X design
- Increased reliability
- · Stronger, more solid core structure
- · Continuous opening up to 10 feet (3 m) and double opening up to 20 feet (6 m)

Our unique system includes rigid top and bottom moldings designed to prevent unwanted air and water infiltrations and create an effective windbreaker during the winter when the minimum ventilation stage is in function.

Winter ventilation with windbreaker
