

# ISOCELL<sup>®</sup> Z-wall

The perfect solution for your natural ventilation combining **TRANSPARENCY, INSULATION** and **RIGIDITY!**

**ISOCELL<sup>Z</sup>**

An innovation from  
**SECCO**

# ISOCELL<sup>®</sup> Z-wall

DO AWAY WITH THE ICE  
AND THE COLD WITH THE  
UNIQUE TECHNOLOGY  
OF ISOCELL<sup>®</sup> Z-WALL

Nearly **2X** the insulating power of **ANY** other system on the market today!

These diagrams illustrate the heat zone

## THE MULTI-WALL ISOCELL<sup>®</sup> Z-WALL OFFERS:

The "Z" structure of membrane inserted inside two films by the **ISOCELL<sup>®</sup> Z-wall** technology offers the possibility to manufacture this unique ventilation wall while having multiple insulating cells.

This insulated barrier of the Multi-Wall **ISOCELL<sup>®</sup> Z-wall** minimizes the heat transference of the colder external air and the warmer interior air cells.

By eliminating the heat transfer, the new Multi-Wall **ISOCELL<sup>®</sup> Z-wall** is the most insulating, economic, and efficient system on the market!

- **2X more insulation R3.0 (U1.9)**
- **Excellent luminosity**
- **Increased reliability**
- **Elimination of ice formation**
- **Stronger, more solid core structure**
- **Improved lowering of the membrane due to the Z design**
- **Continuous opening up to 10 feet (3 m) and double opening up to 20 feet (6 m)**
