BLUECONTROL

MODERN CLIMATE CONTROLLER
FOR MORE PRODUCTIVE DAIRY FARMS

Features:

- Also known as DOL 430, this controller is designed for the North American market and cULus certified.

- Effortlessly compatible with Natural, LPV, Tunnel, Combi-Tunnel, and Hybrid ventilation type.

- Comes with 12 relays (you can add I/O cards to get more relays). The 0-10 V inputs and outputs of the main module can be configured in the following way:
  - 11 inputs and 2 outputs - or
  - 9 inputs and 4 outputs - or
  - 7 inputs and 6 outputs.

- Password-protected function to prevent unauthorized changes, with three different levels of users' access.

- Temperature and humidity monitoring and adjustment, and pressure level monitoring.

- Wind speed and wind direction monitoring, and rain detection and adjustment for regulating curtains in the Natural ventilation mode.

- CO_2 and NH_3 monitoring and adjustment.

- Temperature Humidity Index (THI) monitoring and adjustment along with heat stress alerts.

- Intelligent lighting management and automation.

- Alarm output to external alarm system.

- Activity log that registers operations, events, and alarms with the information of when they took place and when they were deactivated.

- Data are updated in real-time in both the climate controller and FarmOnline™ application.

- Combined with the FarmOnline™ desktop application, it can import the data overview of the barns into insightful offline reports with the graphs in multiple formats.

- Software is available in 36 languages, including English, French, German, Japanese, Chinese, Spanish, Arabic, and more!
